Backend Software Development Engineer

[henryarnoldme@gmail.com](mailto:henryarnoldme@gmail.com)

## SKILLS

### TECHNICAL SKILLS

**Programming Skills:** Proficient with Python, JavaScript, Redis and SQL.

**Back-End Frameworks:** Django, Flask, Node.js.

**Environments:** Visual Studio Code.

**Hard Skills:** Algorithms, Data Structures.

**Software Development Skills:** Git, Software Testing with Unit and Integration Tests.

## EDUCATION

### KCA UNIVERSITY

2023 - 2026      INFORMATION TECHNOLOGY

- Throughout this period, I am learning about computer programming, computer networking, financial management and some Data Structures & Algorithms.

### ALX

2023 - 2024      COMPUTER SOFTWARE ENGINEERING NANO-DEGREE PROGRAM

- Throughout this period of one year, I managed to gain skills in not only Software Engineering but also collaboration, communication and some problem-solving skills.

- I have participated in different projects through this period that helped me build my skills in computer programming.
- I did a Backend specialization whereby I managed to work with tools like Python, JavaScript, Redis, MySQL and MongoDB. Adding them to my stack.

## **OVERVIEW**

I am a passionate backend software development engineer equipped with skills to get me ready to work with teams to provide solutions to real-world problems.
